

# Birds of the Middle East: Helm Wildlife Guides - A Comprehensive Exploration of the Region's Avian Diversity

The Middle East is a region of great ornithological interest, with a rich and diverse avifauna that includes a variety of species from both the Palearctic and Afrotropical realms. The region is home to many endemic and threatened species, and is also a major migration route for birds from Europe, Asia, and Africa.

*Birds of the Middle East: Helm Wildlife Guides* is the definitive guide to the birds of this fascinating region. Written by a team of experts, the book provides comprehensive coverage of all the species that occur in the Middle East, including detailed descriptions, distribution maps, and stunning photographs.

## Contents

The book is divided into two main sections. The first section provides a general overview of the birds of the Middle East, including information on the region's geography, climate, and habitats. The second section is a species-by-species account of all the birds that occur in the Middle East, organized by family.

Each species account includes the following information:

- A detailed description of the bird's appearance, including its size, shape, plumage, and distinctive markings
- A distribution map showing the bird's range in the Middle East
- Information on the bird's habitat, diet, and behavior
- A photograph of the bird in its natural habitat

## Features

*Birds of the Middle East: Helm Wildlife Guides* is packed with features that make it an essential resource for anyone interested in the birds of the region.

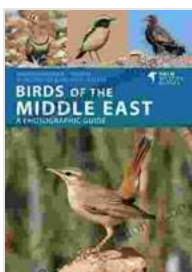

- **Comprehensive coverage:** The book covers all the species that occur in the Middle East, including rare and endemic species.
