# GRE Words in Context: The Complete List for Test Prep

The GRE is a standardized test that is required for admission to many graduate schools. One of the most important sections of the GRE is the Verbal Reasoning section, which tests your vocabulary and your ability to understand written text. In order to do well on this section, you need to be familiar with a wide range of words, including GRE words in context.

GRE words in context are words that are used in the context of a sentence or passage. This means that you need to be able to understand the meaning of the word based on how it is used in the sentence or passage. For example, the word "abrogate" means "to repeal or annul." In the sentence "The president abrogated the treaty," the word "abrogate" means that the president canceled the treaty.
