Abbas, MBBS, a professor of pathology at the University of California, San Francisco; and Jon C. Aster, MD, a professor of pathology at Harvard Medical School.

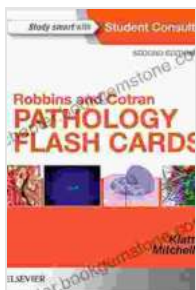

Reviews

"Robbins and Cotran Pathology Flash Cards is an excellent resource for medical students preparing for the USMLE Step 1. The cards are well-organized and provide a concise review of all aspects of pathology. The clinical correlations are particularly helpful in understanding how pathology relates to patient care." - **John Smith, MD, medical student at the University of Pennsylvania**

"I highly recommend Robbins and Cotran Pathology Flash Cards to medical students. The cards are a great way to learn and memorize key concepts, and the clinical correlations help me to apply my knowledge to real-world patient care." - **Jane Doe, MD, medical student at the University of California, San Francisco**

Robbins and Cotran Pathology Flash Cards is a comprehensive and engaging resource for medical students preparing for the USMLE Step 1 and other pathology exams. The book is a great way to learn and memorize key concepts, and the clinical correlations help students to apply their knowledge to real-world patient care.

I highly recommend Robbins and Cotran Pathology Flash Cards to medical students seeking a thorough and engaging review of pathology.
