SS BSc Mathematics 3rd Combo is a three-year undergraduate program offered by Savitribai Phule Pune University. It is a combination of Mathematics and two other subjects, typically chosen from Physics, Chemistry, Computer Science, Statistics, or Economics. This program provides students with a strong foundation in mathematics, as well as the opportunity to specialize in a particular area of interest.

Course Structure

The SS BSc Mathematics 3rd Combo program consists of a total of six semesters. The first two semesters are devoted to foundational courses in mathematics, including Calculus, Linear Algebra, and Differential Equations. In the remaining semesters, students take courses in their

chosen specialization, as well as elective courses from a variety of disciplines.

The following is a list of the core courses in the SS BSc Mathematics 3rd Combo program:

- Calculus I and II
- Linear Algebra I and II
- Differential Equations
- Probability and Statistics
- Numerical Analysis
- Mathematical Modeling

In addition to the core courses, students can choose from a wide range of elective courses, including:

- Abstract Algebra
- Topology
- Complex Analysis
- Partial Differential Equations
- Optimization
- Mathematical Finance

Career Prospects

Graduates of the SS BSc Mathematics 3rd Combo program have a wide range of career opportunities available to them. They can work as mathematicians, statisticians, data analysts, financial analysts, or teachers. They can also pursue careers in research, development, or consulting.

The following is a list of some of the job titles that graduates of the SS BSc Mathematics 3rd Combo program may hold:

- Mathematician
- Statistician
- Data Analyst
- Financial Analyst
- Teacher
- Researcher
- Developer
- Consultant

Entrance Exams

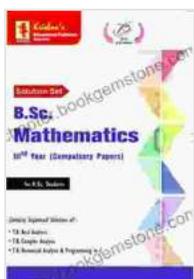

To be eligible for admission to the SS BSc Mathematics 3rd Combo program, students must pass the Maharashtra Common Entrance Test (MHT-CET). The MHT-CET is a competitive exam that is administered by the Directorate of Higher Education, Maharashtra.

The MHT-CET is divided into two parts: Part A and Part B. Part A is a compulsory section that consists of questions from Mathematics, Physics,

and Chemistry. Part B is an optional section that consists of questions from a variety of disciplines, including Economics, Biology, and Geography.

Students who score well on the MHT-CET will be eligible for admission to the SS BSc Mathematics 3rd Combo program. The cutoff for admission varies from year to year, but it is typically around 80%.

The SS BSc Mathematics 3rd Combo program is a rigorous and challenging program that can provide students with a strong foundation in mathematics and prepare them for a successful career in a variety of fields. If you are interested in pursuing a career in mathematics, then the SS BSc Mathematics 3rd Combo program is a great option for you.
